

I support XM Satellite Radio and the programming they offer 100%.
Please do not try and place limits on programming offered by XM.

Why should the NAB be allowed to dictate what listeners have been listening to and want to continue to listen to. I ask that the NAB withdraw petition 04-160 and continue to let Americans have the freedom they deserve in the right to choose what they want to listen to, not what the NBA thinks should be offered. Please tell the NAB to mind their own business, grow up and not take away our Freedom.
